Christian Isendahl and Daryl Stump (eds)Oxford University Press, £110ISBN 978-0199672691Review Catherine Barnett. This collection of papers examines the place of humans within their global ecosystem, along with their long-term modification of, and responses to, it. The book brings together contributors and subject areas from the fields of anthropology, archaeology, and landscape history in order to address major environmental issues, including lessons to be learned regarding water security, ...

~~Review - The Oxford Handbook of ... - Current Archaeology~~

Archaeology is a vast subject - it is the study of human society everywhere in the world, from distant human origins 3-4 million years ago up to the present day. The Oxford Handbook of Archaeology brings together 35 authors - all specialists in their own fields - to explain what archaeology is really about. This is one of the most comprehensive treatments of the subject and of the key debates ever attempted.
