Bendix King KN 64 DME Excellent Condition | eBay

The King KN-64 DME represents a compromise between the KN-62 and KN-62A DMEs. It is a current production model, like the KN-62A, but typically sells for roughly the price of a KN-62 (check current prices). The trade-off is that the KN-64 is a less powerful model than either the KN-62 or KN-62A.

weighs in at only 2.6lb. The KN64's self-dimming photocell provides large easy-to-flight information.

Buy BendixKing KN64 DME (OHC)

Both the KN 62A and KN 64 can be channeled remotely through almost any NAV receiver or tuned directly with their own frequency selection knobs. They even have dual channeling capability, making two DME frequencies available to you at all times - one remote with one stored internally. So what you have, in effect, is a functional DME Hold Mode.

KN 62A Panel Mount DME - BendixKing

The TSO'd KN 63 is a complete 100 watt, 200-channel remote DME system utilizing Large Scale Integrated (LSI) circuit technology. Offering significant advantages in DME reliability and performance, the KN 63 is all solid-state (no transmitter tubes) and can be installed with either single or dual panel indicators.

During the Bendix and King merger (i.e. Bendix/King), a new part numbering system was created that converted these 9 digit part numbers to 12 digits. Therefore, 066-3056-01 became 066-03056-0001. Despite this numbering change, units that were originally from the King Radio design still have the 9 digit part number format on the unit dataplate.
