A normal drummer's autobiography would probably be filled with crude anecdotes of excess, but Mr. Bruford is clearly a very deep thinker, and this book is at least as philosophical as it is musical. Yes, there are musical anecdotes (surprisingly slim on Yes, more so on King Crimson), but Bill is not in this for a cheap hit on the fans' wallets.

Bruford meanders back and forth along a vaguely-chronological path from his first public appearance at 14 to his retirement from public performance at 59, with stops at Yes and King Crimson, Genesis and Earthworks, a path that led from solo practice to rock to progressive rock to electric rock to jazz - with, again, meanders back and forth between them (as when the not-quite-newly-minted jazz drummer returned to play with the "double-trio" version of King Crimson in the mid-'90s).

Yes have now been on the rock circuit for an incredible 34 years. Jon Anderson, Steve Howe, Rick Wakeman, Chris Squire and Bill Bruford are just some of the star players who helped to make the band one of the greatest-ever names in classic rock. Their turbulent story spans the early days of pub and club gigs, international supergroup status in the heyday of rock, and various line-ups since.Chris Welch's definitive biography of Yes is once again updated to include the historic return of Rick Wakeman to the classic Yes line up during 2002 and their subsequent highly successful tour of America.

What do Postman Pat, Tommy Cooper, Norman Wisdom and George Best have in common with being abandoned in a Costa Rican jungle after a severe bout of flatulence? Indeed, how are they also connected to trying to buy an Australian brewery just to get a beer, owning twenty-two cars, an American soccer team and a Swiss mail-order pornography company? The common feature is of course a certain Richard Wakeman. The Further Adventures of a Grumpy Old Rock Star takes you, the privileged reader, on a trip of absurd excess, a cultural car crash of side-splitting hilarity and an unforgettable glimpse (again) into the life of one of Britain's most legendary showmen, rock stars and all-time great raconteurs.

In All My Yesterdays the renowned guitarist Steve Howe tells his own story in his own words, often unflinchingly as he recounts times of triumph and torment amidst the cream of the UK's prog rock bands. Best known for his work with Yes, a group prone to sudden upheavals, and AOR supergroup Asia, Steve Howe s passage through these and other bands is a roller-coaster ride of constant touring, tense recording sessions and frequent trips to all corners of the globe. A workaholic, he soon realised that the temptations of the rock 'n' roll lifestyle weren't for him and instead dedicated his life to excellence in musicianship. Born in North London in 1947, Steve got his first guitar at the age of 12 and thereafter devoted himself passionately to mastering its intricacies. After spells in psychedelic bands of the late sixties, he was invited to join Yes in 1970, thus finding himself in a spotlight that shines to this day. In the meantime he raised a family, adopted vegetarianism as a lifestyle and watched as many of his peers succumbed to the impulses he managed to avoid. As well as Yes and Asia, Steve has led bands of his own, released numerous solo recordings in many different musical styles and amassed a legendary collection of priceless stringed instruments. All of this and his many encounters with other celebrated guitarists are recounted in All My Yesterdays, the first ever autobiography by a member of Yes.

In excerpts from interviews conducted over a twenty-five-year period, members of the British rock band talk about their influences, performing live, and how their albums were written and recorded

Created for drumset players who find themselves in a creative rut, this book and audio package easily breaks down the mystery behind subdivisions, rhythmic modulation, rhythmic scales and beat displacement. The author makes the transition from mathematics to musicality with an easy and systematic approach.

Greg Lake first won acclaim as lead vocalist, bass guitarist and producer when, together with Robert Fripp, he formed King Crimson. Their first album, the landmark In the Court of the Crimson King, co-produced by Greg, featured the iconic song '21st Century Schizoid Man'. King Crimson pioneered progressive rock and paved the way for many famous bands that followed, from Yes and Genesis to the Red Hot Chili Peppers. In 1970 Greg met fellow legend Keith Emerson during a North American tour; the two shared common bonds: European musical influences and a desire to reinterpret classical works while creating a new musical genre. After being introduced to drummer Carl Palmer, they formed the first progressive rock supergroup Emerson, Lake and Palmer. To date ELP has sold over 50 million records. Lake produced Emerson, Lake & Palmer, Tarkus, Pictures at an Exhibition, Trilogy, Brain Salad Surgery, Works Vol. 1 and 2, and two different live albums. All went platinum and featured a series of hit singles, most written and all sung by Lake. The three created a unique live theatrical performance which featured Emerson attacking his keyboards with knives, Palmer playing a 2.5 ton stainless steel kit and Lake performing on a £6,000 Persian rug which had its own roadie. One of their very first performances was at the historic Isle of Wight Festival in 1970 and they went on to headline California Jam, one of the biggest concerts of the 1970s, attended by 350,000 people. Probably the voice of his generation, Greg fronted the greatest rock supergroup of the 1970s but never held with the 'progressive' tag that attached itself to both the music and the excess. Lucky Man not only charts the highs and lows of a career in rock music but also reflects on the death of Keith Emerson last year, living with terminal cancer and the end of life. Greg can best be summed up by his now-famous line: 'Material wealth is a very fleeting pleasure ... when you can buy anything you want and do anything you want, you soon discover that you actually don't want any of it.'
