The Journal of Microbiology and Biotechnology (JMB) is a monthly international journal devoted to the advancement and dissemination of scientific knowledge concerning microbiology, biotechnology, biomedicine and related academic disciplines.

JMB - Articles

Since its foundation in 1985, the World Journal of Microbiology & Biotechnology has provided a forum for research work directed toward finding microbiological and biotechnological solutions to global problems. As many of these problems, including crop productivity, public health and waste management, have major impacts in the developing world and newly-industrialized countries, the journal especially reports on advances for and from developing regions.
