Nation that has great political, social, and economic influence. Great powers are recognized in an international structure such as the United Nations Security Council,[1] A great power is a sovereign state that is recognized as having the ability and expertise to exert its influence on a global scale. Great powers characteristically possess military and economic strength, as well as diplomatic and soft power influence, which may cause middle or small powers to consider the great powers' opinions ...

## Great power - Wikipedia

In the Global Era, the United States became a nation of fewer limits, but also fewer guarantees. Consumers and producers adapted to rapid change driven by computers, large amounts of data, and smart devices. Increased global interdependence created efficiencies and opportunities for some, but erased safeguards and employment for others.
