A journalist's twenty-year fascination with the Manson murders leads to shocking new revelations about the FBI's involvement in this riveting reassessment of an infamous case in American history. Over two grim nights in Los Angeles, the young followers of Charles Manson murdered seven people, including the actress Sharon Tate, then eight months pregnant. With no mercy and seemingly no motive, the Manson Family followed their leader's every order -- their crimes lit a flame of paranoia across the nation, spelling the end of the sixties. Manson became one of history's most infamous criminals, his name forever attached to an era when charlatans mixed with prodigies, free love was as possible as brainwashing, and

utopia -- or dystopia -- was just an acid trip away. Twenty years ago, when journalist Tom O'Neill was reporting a magazine piece about the murders, he worried there was nothing new to say. Then he unearthed shocking evidence of a cover-up behind the "official" story, including police carelessness, legal misconduct, and potential surveillance by intelligence agents. When a tense interview with Vincent Bugliosi -- prosecutor of the Manson Family and author of *Helter Skelter* -- turned a friendly source into a nemesis, O'Neill knew he was onto something. But every discovery brought more questions: Who were Manson's real friends in Hollywood, and how far would they go to hide their ties? Why didn't law enforcement, including Manson's own parole officer, act on their many chances to stop him? And how did Manson -- an illiterate ex-con -- turn a group of peaceful hippies into remorseless killers? O'Neill's quest for

the truth led him from reclusive celebrities to seasoned spies, from San Francisco's summer of love to the shadowy sites of the CIA's mind-control experiments, on a trail rife with shady cover-ups and suspicious coincidences. The product of two decades of reporting, hundreds of new interviews, and dozens of never-before-seen documents from the LAPD, the FBI, and the CIA, Chaos mounts an argument that could be, according to Los Angeles Deputy District Attorney Steven Kay, strong enough to overturn the verdicts on the Manson murders. This is a book that overturns our understanding of a pivotal time in American history.

taste are the twin forces that secretly defined the course of civilization. Through war and plague, revolution and migration, people have always had to eat. What and how they ate provoked culinary upheaval around the world as ingredients were traded and fought over, and populations desperately walked the line between satiety and starvation. Parallel to the history books, a second, more obscure history was also being recorded in the cookbooks of the time, which charted the evolution of meals and the transmission of ingredients around the world. *Food Fights and Culture Wars: A Secret History of Taste* explores the mysteries at the intersection of food and society, and attempts to make sense of the curious area between fact and fiction. Beautifully illustrated with material from the collection of the British Library, this wide-ranging book addresses some of the fascinating, forgotten stories behind everyday

This revelatory and dramatic history of disinformation traces the rise of secret organized deception operations from the interwar period to contemporary internet troll farms We live in the age of disinformation—of organized deception. Spy agencies pour vast resources into hacking, leaking, and forging data, often with the goal of weakening the very foundation of liberal democracy: trust in facts. Thomas Rid, a renowned expert on technology and national security, was one of the first to sound the alarm. More than four months before the 2016 election, he warned that Russian military

intelligence was “carefully planning and timing a high-stakes political campaign” to disrupt the democratic process. But as crafty as such so-called active measures have become, they are not new. The story of modern disinformation begins with the post-Russian Revolution clash between communism and capitalism, which would come to define the Cold War. In *Active Measures*, Rid reveals startling intelligence and security secrets from materials written in more than ten languages across several nations, and from interviews with current and former operatives. He exposes the disturbing yet colorful history of professional, organized lying, revealing for the first time some of the century’s most significant operations—many of them nearly beyond belief. A White Russian ploy backfires and brings down a New York police commissioner; a KGB-engineered, anti-Semitic hate campaign creeps back across the Iron Curtain; the

CIA backs a fake publishing empire, run by a former Wehrmacht U-boat commander, that produces Germany ' s best jazz magazine. Rid tracks the rise of leaking, and shows how spies began to exploit emerging internet culture many years before WikiLeaks. Finally, he sheds new light on the 2016 election, especially the role of the infamous “ troll farm ” in St. Petersburg as well as a much more harmful attack that unfolded in the shadows. Active Measures takes the reader on a guided tour deep into a vast hall of mirrors old and new, pointing to a future of engineered polarization, more active and less measured—but also offering the tools to cut through the deception.

officially called the Joint Defence Space Research Facility, but it had nothing to do with research and was joint in name only: Australians were hired as cooks and janitors but the first spies were all American. The job of the satellites controlled from Pine Gap was to eavesdrop on Soviet missile tests. While government ministers denied that Australia was a nuclear target, bureaucrats in Canberra secretly planned for Armageddon in the suburbs of Alice Springs. No longer just a listening station, Pine Gap has metamorphosed into a key weapon in the Pentagon's war on terror, with Australians in frontline roles. Drawing on declassified documents in Australian and US archives, Tom Gilling's explosive new book tells, for the first time, the uncensored story of Australia's most secret place.
