User Service Manual File Type

User manuals can be provided in either a paper format or as an electronic document (PDF or placed online or on-device in HTML). The user manual template is an MS Word document that can be printed or placed online. User manuals can be created using a variety of tools. Each tool has its own advantages and disadvantages.

User Manual Template and Guide to Create Your Own Manual ...

The .service file. Create a .service file in the systemd folder. For example /etc/systemd/system/my_daemon.service. Here is an example .service file. If you want to create a user service that you can run yourself without needing root permissions, you can put the service file in \$HOME/.config/systemd/user/my_daemon.service.

Service files must include a [Service] section, which carries information about the service and the process it supervises. A number of options

that may be used in this section are shared with other unit types. These options are documented in `systemd.exec (5)`, `systemd.kill (5)` and `systemd.resource-control (5)`. The options specific to the `[Service]` section of service units are the following:
